### GENKINGER WILL NAME COMMITTEE

New Directors Take Places  
At Annual Meeting Held  
Wednesday At Noon

President L. G. Genkinger, of the New Castle Chamber of Commerce, was authorized to appoint a committee of five from the organization to work with the county and municipal authorities in the development of public works projects, funds for which will soon be available from the Federal Public Works board, at the annual meeting of the board held Wednesday afternoon in the Castleton.

It is the plan of the Chamber of Commerce to render every possible assistance in this movement. During the discussion of the matter, it was brought out that city and county officials have been working on plans for public construction projects under this act for several months.

**Commend Officials**  
A resolution was passed commending the county and municipal authorities for their alertness to the opportunities for public construction at this time and their foresightedness in preparing plans that money for these projects may be secured in this district at an early date.

The annual report of the treasurer, and the report of the auditing committee, was submitted to the board, and found to be correct in every detail. The annual report of the secretary and president, of the activities during the past year, showed many outstanding projects had been accomplished.

### PA NEW OBSERVES

One Lawrence county man probably wishes he never had owned a dog. His animal let loose to a suppressed desire last Saturday and killed 66 chickens owned by a neighboring farm owner. Investigation was made by J. W. Wiley Brewster, state agent, and the dog owner settled the damage.

It's good news to hear that the Erie railroad will move its freight quarters into the West Washington street depot which the P. & L. E. abandoned as its passenger depot last week. Occupied buildings look far better than vacant ones.

Up the main street yesterday afternoon walked a man, piloting a wheelbarrow in which three children rode. Riding in the swankiest limousine to be found would not have been any more of a thrill for the youngsters, we could tell.

The spacious lawn of the Cathedral, it's plain to be seen, is suffering from the lack of rain.

It is not very often that the automatic traffic lights misbehave, but this morning that at the intersection of North and Mercer streets did. What was the matter? One of the signals "just became tired and closed its eye," was the explanation of one of the repairmen.

### Commercial Treaty Negotiations To Open With South America

By KINGSBURG SMITH

WASHINGTON, July 13.—President Roosevelt's informal announcement that commercial treaty negotiations are about to open with four additional South American republics marks full steam ahead in the administration plan to concentrate on the development of trade relations with the nations of the American continent, it was learned today.

This plan to build up trade with the countries of the western hemisphere forms a fundamental link in the new foreign policy of "America first" which is shaping rapidly under the direction of the president.

To concentrate on Americas

Irked at the efforts of the European nations to take advantage of this country at the world economic conference, first by injecting the debt issue and then by attempting to force this government's hand on stabilization, the president has decided to concentrate on the immediate future.

### U.S. Negotiates With Russia Over Mattern Through Brewery Co.

(International News Service)

WASHINGTON, July 13.—Veteran state department officials today were at a loss to find precedent for the situation which has developed between this government and Soviet Russia over the return of Jimmy Mattern, round-the-world flyer, to American soil, whereby negotiations are being carried on indirectly thru the good offices of a Brooklyn brewery.

Officials said it was the first time in the history of American foreign relations that the good offices of a brewery had been used to carry on diplomatic negotiations with an unrecognized foreign government.

The situation arose over the fact that the Friedman Kings Brewery, Inc., of Brooklyn, sponsored a rescue expedition to bring Mattern back from the Siberian wilderness, where he crashed while attempting to complete a round-the-world solo flight. The rescue expedition made its base at Nome, Alaska, and the brewery appealed to the Soviet government through the Soviet information bureau here to have Soviet plane fly Mattern to Nome from Anadyr, Siberia, where he now is staying.

The Soviet government replied, al-

ST. ## WAKE UP YOUR LIVER BILE— WITHOUT CALOMEL

And You'll Jump Out of Bed in the Morning Rarin' to Go

If you feel sour and sunk and the world looks gray, don't swallow a lot of salts, mineral water, oil, laxative candy or chewing gum and expect them to make you suddenly energetic and buoyant and full of sunshine.

For they can't do it. They only move the bowels and a mere movement doesn't get at the cause of your down-and-out feeling in your liver. It should pour out two pounds of liquid bile into your bowels daily.

If this bile is not flowing freely, your food doesn't digest. It just decays in the bowels. Gas bloats up your stomach. You have a thick, bad taste and your breath is foul, skin often breaks out in blotches. Your head aches and you feel dazed and out. Your whole system is poisoned.

It takes those good old CARTER'S LITTLE LIVER PILLS to get those two pounds of bile flowing freely and make you feel "up and up." They contain wonderful, harmless, green vegetable extracts, amazing when it comes to making the bile flow freely.

But don't ask for liver pills. Ask for Carter's Little Liver Pills. Look for the name Carter's Little Liver Pills on the red label. Recent substitutes. See at drug stores. © 1931 C. M. Co.

The reports of President L. G. Genkinger and Secretary Alfred W. Chilton as submitted to the board, follow in part:

Secretary's Report

"The accompanying report of President L. G. Genkinger sets forth the major activities of the New Castle Chamber of Commerce for the Fiscal Year beginning June 1, 1932, and ending May 31, 1933. In view of the depressed industrial and economic conditions which prevail, not alone in New Castle but in the wide area of our Chamber of Commerce has been most difficult and shows less definite accomplishments than in former progressive years, yet it has continued its efforts along lines which we feel assured will ultimately produce valuable results to our community. The Chamber of Commerce activities have been carried forward along lines which we believe to be beneficial to our community, in the face of reduced revenues, due to a much smaller membership than in former years."

"While, as stated above, the organization's activities have been seriously handicapped because of greatly decreased revenues, yet it has continued its effective work and directed its efforts along lines which are felt are of the greatest economic need, such as Waterways Development, securing the use of local materials and local labor in construction activities in this district, negotiations with prospective industries, efforts to secure funds to be appropriated by the Industrial Recovery Act, etc., etc."

"With regard to the financial condition of our organization, although we have incurred a deficit in conducting the organization this year, we believe we have maintained a comparatively good condition in view of the general economic situation."

"The Retail Merchants Division has done much in the interests of the merchants of New Castle by the conducting of sales, development of better merchandising methods, etc., and they have also protected the community against questionable promotion schemes, promiscuous soliciting, etc."

"Our President, L. G. Genkinger has most faithfully and untiringly served the Chamber of Commerce. Through his contribution to our organization the city and community, he has labored without consideration of self and at a considerable sacrifice of his time, efforts, and money."

President's Report

"During the year of the Chamber's work ending May 31, 1933, the interest displayed by the members and their participation in the various activities of the Chamber has shown many evidences of most willing, practical and cordial cooperation. Young Pittsburgh Swain Finds Out That It Doesn't Pay To Write Checks

(International News Service)  
PITTSBURGH, July 13.—Leonard Urban, youthful swain with a pronounced flair for writing—he's a prolific check signer—believes that marriage is just the finest institution in the world.

And because of that belief, Leonard was triple-crossed—three hefty right crosses to the jaw—by the girl he left behind.

He nursed the bruised jaw and brooded over the vagaries of fate behind jail bars today.

But Is Halted.

Miss Lillian Davis, 26, gave Leonard the one-two-three when he was arraigned and held for court on six charges of false pretense and forgery, all because of his easily swayed matrimonial inclinations. Miss Davis was declared winner by a knockout by constables who halted the bout.

Leonard, it seems, is the convincing young man who took Miss Davis on a spending spree, declaring that as soon as he was married he would receive a splendid bequest set up in the will of his late grandmother, or maybe it was his aunt.

Leonard just spent and spent. He bought furniture, a radio, and an automobile and he paid for them—more than \$4,000—in checks.

Then, while Miss Davis waited patiently for Leonard to keep a date with the person, Leonard showed up in a Uniontown church with a new conquest—Miss Betty Kerston, 24, of McKeesport.

The person was suspicious and called police.

Then followed Leonard's arrest, arraignment and knockout.

Alton, Ill., July 13.—Members of the family of August Luer, aged banker kidnapped from his home here Monday night, were confident they would hear from the kidnappers today.

Lawrence Kelly Jr., and Orville S. Catt, two employees of the Luer interests, have been chosen to deal with the abductors.

Young Pittsburgh Swain Finds Out That It Doesn't Pay To Write Checks

(International News Service)  
PITTSBURGH, July 13.—Leonard Urban, youthful swain with a pronounced flair for writing—he's a prolific check signer—believes that marriage is just the finest institution in the world.

And because of that belief, Leonard was triple-crossed—three hefty right crosses to the jaw—by the girl he left behind.

He nursed the bruised jaw and brooded over the vagaries of fate behind jail bars today.

But Is Halted.

Miss Lillian Davis, 26, gave Leonard the one-two-three when he was arraigned and held for court on six charges of false pretense and forgery, all because of his easily swayed matrimonial inclinations. Miss Davis was declared winner by a knockout by constables who halted the bout.

## Pennsy Resumes Battle Against River Terminal

Pennsy Railroad Counsel Continues Arguments In Court At Beaver

(International News Service)  
BEAVER, Pa., July 13.—With a truck load of maps, pictures and records already submitted as evidence in the case, Pennsylvania railroad counsel today continued the carrier's battle for an injunction to restrain the Pittsburgh Coal company's construction of a rail-river loading terminal for its 13-mile rail route between Negley, O., and Smiths Ferry.

Evidence before Judge Frank E. Reader today includes the record that directors of the coal company authorized the expenditure of \$1,250,000 for a coal yard, tipples, wharf, trackage and other equipment at the Smiths Ferry.

Night sessions of the court have been ordered to speed up the trial.

During yesterday's session, Pennsylvania railroad engineers testified that dredging operations of the coal company under a bridge of the Cleveland & Pittsburgh railroad, a Pennsylvania subsidiary, would undermine and damage piers of the structure.

### Seven Girl Scouts From Local Troop Are Going To Camp

Mahoningtown Troop To Be Represented At Camp Phillips In August

When the New Castle Girl Scout camp opens on the first week of August, seven members of the Mahoningtown Girl Scout troop will be there to answer at roll call. They are:

Mary Ellen Shanafelt, Maneta McCracken, Martha Louise Mauck, Jessie Gilbert, Ruth Taylor, Lenore Christley and Emily Rhineberger.

When the two weeks' period at Camp Phillips draws to a close, the New Castle Girl Scout organization plans to conduct "day camp" at Cascade Park. It is probably that all the girls of the local troop will take part in this daily feature. Transportation will be furnished from here to the park every morning and every Girl Scout is eligible to attend. The day camps will be conducted in the same manner as regular camp, except that is is dispersed in the late afternoon.

### Car Is Wrecked, Occupants Flee

After crashing their light sedan into the truck owned by Nick Russo of Montgomery avenue, two colored men ran from the wreckage and have not been heard from since.

The accident occurred on West Madison avenue in front of the Lingeright Dairy Wednesday afternoon. The truck was not damaged greatly but the smaller car was almost a total wreck and was towed away to a local garage. It bore Ohio license plates.

### Puts An End To Bunion Pains

No Need to Suffer Another Day

There is one simple yet inexpensive way to reduce inflammation of swollen toe joints and help get them down to normal and that is to apply Moore's Emerald Oil night and morning.

Ask Eckerd's Drug Store, New Castle Drug, or any first class drug-gist for an original two-ounce bottle of Moore's Emerald Oil (full strength) and refuse to accept anything in its place. It is such a highly concentrated preparation that two ounces lasts a long time and furthermore if one bottle of Emerald Oil does not give you complete satisfaction you can have your money refunded.

Special note: People who want to reduce swollen or varicose veins should get a bottle of Moore's Emerald Oil at once. Applied night and morning as directed they will quickly notice an improvement which will continue until the veins and bunces are reduced to normal.

And, when the 4-day run on the famous Indianapolis Speedway was over, Gulf-lube had beaten every oil in every car!

To the amazement of the Officials, the average of all the figures proved this... Gulf-lube went 28½% farther than its competitors before a quart of oil had to be added—a clear-cut saving of over one-fourth!

Switch to Gulf-lube and start saving 2 ways! First, you'll use less oil. Second, you'll pay less for repairs—for the oil that gives higher mileage is a better buy. Prove it! Get Gulf-lube at any Gulf station.

## Famous Riding Clown With Circus Saturday

George Hanneford, famous riding clown, star of the Hanneford family of riders, with Downie Bros. circus, the big Sparks managed show, will come here for matinee and night performances on the Mahoning avenue grounds Saturday.

This famous funster, internationally known the world over for his inevitable red wig and hilarious comedy horseback, which he mingles with the thrills of skillful and daring horsemanship, is but one of the many famous stars of circusdom and funland to be seen with the big show. Jack Hoxie, famous western screen star, appears in person with Miss Dixie Starr, leading lady of many of his screen thrillers; and a company of his players from Hollywood, including "Scout", his wonder horse.

Hosts of aerialists, acrobats, gymnasts and clowns round out the program, which is supported by three groups of liberty horses, the 1933 innovation "dancing horses", starring Miss Marion Shuford and her blue ribbon winner, "Kentucky Mann", amid a group of 30 thoroughbreds. Trained ponies, performing elephants and the big double menagerie are other circus attractions.

Gorgeous spectacles open and close the circus performance. Opening with "Oriental Blossoms" and closing with "Havatha", a new spectacular Indian presentation, the 1933 Downie Bros. circus measures up to the traditional standard of the Sparks managed circuses.

The street parade with many new

and novel features will leave the circus grounds at 11:30 a. m.

## Cotton Price Jump Aids Cotton Farmers

(International News Service)  
ATLANTA, July 13.—Wielding a giant three-edged sword, mighty king cotton today lopped off \$45,000,000 in paper profits to be placed in the pockets of long-suffering farmers of the southland as a result of the volcanic spurge in the market.

A \$4.50-a-bale advance on an expected crop of 10,000,000 bales accomplished the coup d'etat in the fleecy staple on the market yesterday as a result of widespread reports that the government's acreage reduction program had been successful.

The rally in cotton is the most spectacular since the bull market of 1928 and drove prices to a level higher than since March, 1931.

## School Board Takes Coal Bid

Provision Is Included As To Possible Governmental Cost Action

ABOUT 4125 TONS  
NEEDED FOR YEAR

After considerable discussion Wednesday night, the New Castle School Board let the contract for coal for the coming school term, but placed certain restrictions around the contract to be made. The bid accepted was that of Maxwell and Gibson for 4125 tons of coal from the Enterprise Mine. The bid was placed subject to any increases caused by action of the government in the way of codes, wage increases or freight rates. The board in turn will incorporate in the contract a clause which will require the dealer to show exactly what increases, if any, are made because of governmental regulation.

There were eight coal companies represented in the bidding. The figures were close together and the bid was made not so much upon price as upon the quality of coal offered. The bid of Maxwell and Gibson was \$3.00 per ton for slack, \$3.50 per ton for 1/4 coal, \$3.55 per ton for 1/2 coal, and \$3.25 per ton for nut coal. There were other bids for coal lower than this, but the board decided upon Enterprise coal.

**Increases Discussed**  
When the bids were discussed Director Duff said that he didn't like the clause contained in the bids which provided for an increase in the price offered if the government ordered increases in production costs. "I don't like to see us tied up with an indefinite increase," said he.

"We have coal on hands in the bins," said Director Hyde "and we would not be handicapped for the starting of school if we did not let this contract tonight."

"We may not be able to do any better later on," said Director Hazen, "but these bids are not in good shape."

It was suggested that all certified checks sent in with bids be returned and the bid held up until such time as the governmental regulations were announced. Duff then asked Solicitor Moffatt if the bid could be accepted and a stipulation put in the contract that the board would not accept any increases, save those caused solely by the governmental regulations, and Mr. Moffatt agreed that this could be done.

The bid of the Maxwell and Gibson Company was then accepted.

## Health Director Named For Schools

Dr. Mary Baker Is Re-elected—Other Elections By School Board

Dr. Mary J. Baker, director of health for the New Castle schools was re-elected Wednesday night by the New Castle School Board, for another year commencing September 1. Ordinarily the election would not have been held until the August meeting but the state department had asked the board to inform it

immediately of the name of the director for the coming year, at a salary of \$2240.

At the same time, Mrs. Rachel Taylor was re-elected as supervisor of the cafeterias of the school at a salary of \$900 per year, with \$180 allowance for automobile use to get from one school to the other. The yearly report submitted by Mrs. Taylor showed that in spite of a drop of nearly \$4000 in cafeterias during the past school year the cafeterias showed an increase in net profits.

A change was made in the salary of R. L. Stewart special officer who has been on duty for the past year, breaking up mischievous conduct about the schools. He has been getting \$3 per night. Inasmuch as he has to get from one school to the other, a weekly street car pass was

authorized for him and his salary set at \$100 per month. In the past year he has returned considerable money to the board by ascertaining who was responsible for damage to the schools and making them pay.

**NO ACTION TAKEN ON REQUEST MADE BY SCHOOL JANITOR**

William Kocher, one of the public school janitors appeared before the school board Wednesday night with a proposal concerning the insuring of the school truck, which he drives. He stated to the board that under an insurance policy he held on his own automobile, he could get liability insurance on the truck for an additional \$9.92.

The board did not act upon the suggestion for the reason that it is not liable for damage caused by one of the school district cars or trucks. If Mr. Kocher wanted protection they felt that he should get it himself.

### Urges Ladies To Be Frivolous In Leisure Moments

After Working Hard In Of-  
fice Ladies Would Have  
Recreation

#### B. P. W. DELEGATES ARE GIVEN ADVICE

(International News Service)  
CHICAGO, July 13.—Ladies—be  
foolish, frivolous, in your leisure  
time.

This seemingly unseemly advice  
was carefully considered today by  
5,000 delegates to the biennial con-  
vention of the National Federation  
of Business and Professional Wom-  
en, in session here.

It was being carefully considered  
because it is endorsed by three wom-  
en nationally prominent—Miss  
Catherine Oglesby of Philadelphia,  
associate editor of a woman's mag-  
azine; Mrs. Frances Parkinson  
Keyes, globe-trotting author and  
wife of the senior senator from New  
Hampshire, and Miss Mary Synon of  
Chicago, novelist and short story  
writer.

"The true reason for working from  
nine to five," Miss Oglesby told the  
delegates, "is because it enables you  
to play foolishly the rest of the  
time. The good things in life sel-  
dom fall to the lot of the dull Jills."  
One of the "foolish" recommen-  
dations she suggested was "whenever  
you have been working especially  
hard, go out and buy a hat. A red  
hat. Every woman ought to own  
one for the stimulation of her spir-  
it."

## Medical Society Members Enjoy Annual Outing

Forgetting all about prescriptions for the greater part of the day, Lawrence county's doctors, together with their families and guests, assembled at the beautiful New Castle Field Club yesterday to celebrate in gala fashion the annual outing of the Lawrence County Medical Society.

And for that reason the "Doctor is Out" card likely hung in most of the offices of physicians on Wednesday afternoon and last night. The weatherman himself heartily approved and sent ideal picnic weather for the program.

**Things Well Planned.**  
With able planners in charge of things, the group of 140—arrangements were made for that number—enjoyed the hours in golf and other games and later sat down to a delicious dinner in the cool clubhouse dining room. The dinner was served about 6:30 o'clock.

To make the afternoon period more interesting novel contests were conducted for the doctors, their wives and children. They included putting contests, horseshoe pitching games, croquet contests, a bridge tournament and other things.

For the younger tots who came with their parents, Mrs. E. F. Henderson and Mrs. Paris Shoaff directed a thrilling treasure hunt during the afternoon hours. Afterwards they joined the adult group for dinner and the special musical program which followed.

While a large number of the attendants were participating in golf matches, the following persons were winning the feature contests held near the club home:  
Ladies' putting contest, Mrs. James Crawford; bridge tournament, Mrs. W. A. Womer; croquet game, Dr. W. A. Womer; horseshoe game, Dr. L. W. Wilson; napkin hemming contest for hospital, Mrs. E. U. Snyder, and golf, Dr. W. C. Burchfield. Attractive prizes were presented to the winners of the various events.

**Singers Score Hit.**

After the delectable dinner was served, one of the day's highlights, the presentation of "Ye Olde Songs" by a large group of men and women singers of the Second U. P. church, occurred. The program included quaint scenes which brought heavy applause from the audience. The church singers have given the program twice before, but their performance of last night could not have been equaled. It was presented under the direction of Mrs. W. J. Caldwell, director of the Second church choir.

Committees which served for the affair included the following members of the society's women's auxiliary and the society itself:

Social committee—Mrs. S. W. Perry, chairman; Mrs. D. C. Lindley, Mrs. E. F. Henderson and Mrs. H. E. Helling of Ellwood City.

Doctors' entertainment committee—Dr. John Foster, chairman; Dr. W. C. Burchfield, Dr. J. R. Cooper and Dr. D. L. Fry.

Decorations—Mrs. D. C. Lindley,

Mrs. J. R. Cooper and Mrs. C. F. McDowell.

Among 140 Present.

Those who were present during the day to enjoy the annual picnic were:

## Farmers To Make Stop Here Enroute To World's Fair

Party Of 120 From Eastern  
Pennsylvania To Be Here  
August 17

New Castle will have an unusual group of visitors on August 17, when 120 farmers of Schuylkill county will make New Castle their overnight stop on their way to the Century of Progress in Chicago. Thomas Boyle, manager of The Castleton hotel, announced today that he had made arrangements with the farm agent of that county at Pottsville, Pa., to take care of the group for dinner, lodging and breakfast.

Like many other tourists in the east, the Pottsville farm bureau realizes that New Castle is the logical mid-way stop to the Century of Progress and got in touch with Mr. Boyle some time ago. The arrangements are all completed and the guests will arrive on the evening of August 17 by buses from Pottsville. It is possible that the Lawrence county farm bureau and the Chamber of Commerce will want to extend greetings to the visitors when they come and Mr. Boyle has said that if it is desired he will arrange for a reception in the lobby of the hotel.

## Applicants For Registry Boards Examined Today

County Commissioners Prepar-  
ing For Registration Of  
Voters In City

In preparation for the coming registration of voters in this city, county commissioners called applicants for the positions of registrars to the commissioners' office this morning for examination as to their knowledge of the registration laws. County Solicitor John P. Lockhart, examined the different applicants separately.

Very few questions were asked those who have been on the registration boards in former years, as it was presumed that they were familiar with the registration laws. Such questions as what the registrars would do in cases of persons who have moved here from other state, persons who have been recently naturalized, and persons voting on age, were asked.

Practically all of the applicants knew that it was necessary for former voters to present tax receipts, but some of them were a little hazy on other qualifications. All said that they would familiarize themselves with the laws relating to registration, before assuming the duties of their office, if appointed. The law requires that there be a Republican and Democrat on the board. As soon as the qualifications of the applicants are checked up, the commissioners will make the appointments. There are 68 appointments to be made.

The first registration day for third class cities will be on August 31.

## Baltimore And Ohio Experiences Big Rush

Record Number Of Cars Are  
Weighed At New Castle  
Junction In 24 Hours

Freight business of the Baltimore and Ohio, particularly with reference to New Castle Junction and this district have been becoming increasingly heavier in recent weeks but all records to date since the improvement of business, have been shattered in the twenty-four hour period between 11 a. m. Wednesday and 11 a. m. today and the freight department force was kept busy all night by the influx of cars that had to be weighed here.

More than three hundred cars of freight were weighed at the Junction in that period of time with nearly two hundred more yet to be weighed and sent on to their destination. The principal part of this heavy business was coal cars, with steel next and then shipments of bottles, beverages and the regular run of merchandise. The local freight officials have not experienced such a period of overtime or such a heavy business in several years.

## Head Contractor Comes Today To See Post Office

A. W. Kutsche, Detroit, Hopes  
Building Work Resumes  
Shortly

A speedy settlement of differences which led to Tuesday's "walk out" of workmen on the new post office job here, is hoped for by A. W. Kutsche, head of the A. W. Kutsche company, Detroit general contractors for the building project, who came here for his first inspection today.

Arriving in New Castle from Detroit this morning, Mr. Kutsche made a complete inspection of the new federal structure and conferred with his local superintendent, George J. Murphy, over matters relative to the halt in work.

Mr. Kutsche said he knew nothing of the labor trouble until he reached here.

"Naturally, we want the building to progress at once," the general contractor said. "In times like these the community isn't helped when a job is delayed."

The contractor said the company's policy has been and will in the future continue to be one where local labor is given preference over outside help.

The Kutsche company has several building jobs under way in Ohio and Mr. Kutsche visited them. He was to go to Pittsburgh for a visit with relatives after leaving here.

Work was at a total standstill at the building site today.

# CORONER PROBES BOY'S DEATH UNDER TRUCK

## Truck Driver Is Exonerated In Boy's Death

Held Blameless In Accident Which Resulted In Death Of Jos. Krajewski

SAYS BOYS JUMPED ON TRUCK UNINVITED

Inquiry into the death of Joseph Krajewski, who died on the evening of July 6, 1933, of injuries he received when he fell under a coal truck, owned and driven by Virgil Thompson, of 37 North Beaver street, was made by Coroner Potter at an inquest in the office of Alderman James C. Brice last evening. Thompson was exonerated of any blame in the accident by the coroner's jury.

The testimony of the companions of Krajewski was to the effect that he slipped and fell under the truck in attempting to board it, on the Savannah road, Pennsylvania avenue extension, in Shenango township and there was nothing in their testimony which indicated that Thompson had been negligent.

Dr. J. M. Popp testified that he had been called to attend Krajewski in the New Castle hospital at 5 o'clock on the evening of July 6, and found that he had sustained a crushed chest, and was bleeding from the mouth, indicating that his lungs had been punctured. He stated that he had been told that Krajewski was in a truck accident. Krajewski died at 7:35 that same evening of the injuries he had previously sustained.

**Slips Off Truck**  
Mike Vincent, of South New Castle Boro, one of the youths who had been with Krajewski, stated that he and the other boys in their group were employed at Keinschen's gardens. They had quit work at 4:30 and were on their way home. As they were walking along the road, about ten minutes later, the truck driven by Virgil Thompson, a small Ford truck loaded with slack, came along and several of the boys put up their thumbs, beckoning for a ride. The truck slowed down and they all tried to pile on the running board, which extended along the cab of the truck on either side for about two feet.

Vincent stated that he had gotten on the side occupied by the driver and was hanging onto the window. He noticed Krajewski make several attempts to board the truck on the other side and then he slipped off. The boys on the opposite side started "hollering" to the driver to stop, and he looked back and saw Krajewski lying in the road. He ran back to him, he stated, and noticed marks across his chest, and that blood was coming from his mouth. He was moaning.

They put Krajewski in the truck and Thompson started for the hospital with him.

He stated that Joe Dudash and Walter Machrovich were on the same side of the truck with him, while the four other boys in the party, Krajewski, John Myrta, Joe Mathews, and Tony Spaelich, tried to get on the other side.

**Didn't Invite Them**  
He said that Thompson had not invited them to ride on the truck but that when he slowed down as he approached, they took it as an indication that it was all right to get on. He said he recognized Thompson as

they got onto the running board and he had said, "Is that you Virgil," and that he had answered "Yes, it is." He said he knew Thompson as he formerly lived out in New Castle Boro.

Joe Dudash, who was on the same side of the truck as Vincent told a similar story as to the general details of the story, although he had not seen Krajewski's attempts to get on the truck on the other side.

Joseph Mathews, who had gotten on the right side of the truck, where Krajewski attempted to ride, apparently was the only one to notice Krajewski get run over. He said as he had leaped aboard the truck with the other boys and had noticed Krajewski running along with his hands up on the side of the truck attempting to get on. He looked into the cab of the truck for just a moment and when he looked back again, saw Krajewski under the rear wheel of the truck, which passed over his body. He said "hollered" to Thompson to stop, he stated, which he did at once.

Tony Spaelich, who was also on the side of the truck which Krajewski attempted to board, said that after he had gotten on there was no more room on the running board.

He said he was not aware of Krajewski's attempts to board the truck and did not see him fall under, his attention being attracted when Joe Mathews yelled. He said he did not think Krajewski would try to get on as there was no more room.

**Lawton Testifies**  
Corporal L. J. Lawton of the state highway patrol, told of investigating the accident when he learned facts similar to those testified to by the boys, who had been with Krajewski. He said it was against the state motor code for a driver to permit anyone to ride on the side of a motor vehicle.

The truck which Thompson was driving was an old Model T. Ford and the combined weight of the load and truck would be around 6,500 pounds, he stated.

Thompson, the driver of the truck stated that he was 20 years of age, and at the time of the accident was hauling slack for the Lawrence Ice Company. He had just passed up a slight grade prior to meeting the group of boys and was going very slowly. He said the boys were strung out in the road and along the right side, and as he approached them, he slowed down as he was not sure they had heard him coming.

**Says Boys Jumped On**  
As he came alongside, they started to jump onto the truck. He said he had not invited them to ride, but when they all got on he did not order them off, although he did not like the idea of them getting on as he already had a heavy load of slack on the truck and his front springs were weak. He had only gone a few feet after the boys boarded the truck when someone shouted to stop and he did so. Going back in the road, he saw Krajewski. He said he asked him how badly he was hurt but that he only groaned. He said he asked one of the boys to go to call an ambulance as he was afraid to move him, because it looked as though he was very badly injured. Then a boy named Charles Saleski, who had not been with the group came along, and they lifted Krajewski into the truck and he started toward the hospital with him. On the way he talked to Krajewski and he answered a few times.

He said when they got to the hospital, he walked up the steps with them and was put in a wheel chair by a nurse.

He said he did not recognize any of the boys when they got on the truck, but remembered some of them when he heard their names after the accident. He had lived in New Castle Boro five years ago, but that most of the boys in the group were just youngsters then.

He had been hauling coal out that way for some time, but had never seen the boys before and none had ever attempted to ride on the truck.

The jury which heard the evidence in the case was composed of Leonard Campbell, John J. Dougherty, Percy G. Howell, C. E. Allen, James Cooper and W. D. Marshall.

## School Directors Accede To Pleas

Three Present Directors Will Allow Use Of Names At Primaries

INSISTENT DEMAND MADE BY CITIZENS

After considerable pressure by citizens, School Directors Walter W. Duff, Roy W. Hazen and Ray Bradford Elliott have agreed to stand for election in the coming primaries. All of them had stated many times that they would not be candidates again, giving as their reason the fact that they had served terms through difficult times and felt that they were entitled to give more attention to their own affairs.

Since the statements were made several months ago, all three of the directors have been importuned by many citizens to be candidates again. It was pointed out to them that they had comprised the budget committee of the board and the work of this committee had been of large service. As the budget committee they made a thorough study of the school system and were responsible for approximately \$250,000 savings to the taxpayers.

"I had made my mind up not to be a candidate," said Mr. Duff. "My own business requires my attention and I felt that after six years of school board service I was entitled to step out. However, the matter has been put up to me so strongly and so insistently that I have consented to run again."

Mr. Hazen spoke in a similar vein. "It was not my intention to be a candidate again," said he. "As a citizen I felt that I owed a duty to the schools, if I could be of any service, and consented to run six years ago. It was my firm intention not to run again. Like Mr. Duff and Mrs. Elliott, I have been urged to be a candidate again and I have agreed to do so."

Mrs. Elliott has served the unexpired term of Mrs. John G. Northrup, and has less experience than the other two but has proven herself a competent director. "I appreciate the fact that people have thought my service satisfactory," said Mrs. Elliott, "but I had no idea of running again. However, the people have talked to me have been sincere in their urging and I will be a candidate."

The three directors named are the only three whose terms expire this year.

Robert P. Mackey Beneficiary Under Will Filed In New York

(Special To The News.)  
NEW YORK, July 12.—Robert P. Mackey of New Castle is listed as a beneficiary in the estate left by his uncle, the late William J. Patterson, a state transfer tax department report indicated today. He will receive \$3,567.

Mr. Patterson died June 18, 1932, leaving an estate of \$23,098 gross value, \$17,839 net. Under the terms of his will, the legacies each received \$5,000, but due to a shrinkage in the value of assets, the bequests were abated.

## Pay Increase At Bessemer Plant

Employees Of Cement Company Will Benefit By New Rates

YOUNGSTOWN, O., July 13.—A large percentage of the 200 men now employed in the Bessemer, Pa., plant of the Bessemer Limestone & Cement Co., will benefit from the 10 to 20 per cent increase in pay prom-

ised by officials of the company yesterday.

The increase will lift the minimum hourly wage from 27 to 32 cents per hour and will go into effect next Saturday, company officials said.

The adjustments were made due to the company's desire to share with its labor a price advance amounting to 25 cents a barrel on cement made recently. This adjustment will in no way affect the maximum hour and minimum wage provisions to be proposed in the code of the cement industry now being drafted, it is said.

The plant at Bessemer is operating about one-third capacity and the outlook for improvement is good, company officials say.

## Roosevelt May Use "Big Stick"

Threat Of Blanket Order To All Industry Is In Offing

SEEKS TO SPUR ACTION ON CODES

(International News Service)  
WASHINGTON, July 13.—Rooseveltian "big stick" methods today threatened recalcitrant industries lagging in aligning themselves with the national industrial recovery act as word leaked from the White House that the president had under consideration a blanket order compelling all to operate on a 35-40 hour week and \$14-\$16 weekly minimum.

In order to assuage the severity of the veiled threat, both the chief executive and national administrator Hugh S. Johnson made special announcements that they were pleased with the progress made so far in seating units on the recovery bandwagon.

The blanket order, it was said was presented to the president by a

committee representing consumers, labor and industry. Under this plan three groups would be represented, mercantile, manufacturing and the white collar workers.

The unskilled workers would be assured a minimum wage of 40 cents per hour with a maximum of 40 hours per week; the others would be assured of a 35 hour week maximum.

Should the president find it necessary to promulgate the order under consideration, it was learned, it doubtless will be issued as a temporary edict to remain in effect until the various industries get into line.

Johnson has been advised that the shorter work-hours, and one leading element is prepared to submit a code which they will ask to have applied to the industry nationally, providing a 35 hour week.

It begins to appear that "truce" as it is used in the proposed tariff truce is the noun from which the handy adjective "truculent" is derived.—The Fort Worth Star-Telegram.

The moonshiners would probably like to be able to submit a plan to General Johnson that would restore their industry to a paying basis.—The Charleston (S. C.) Evening Post.

In addition to other tragedies, consider thousands of ants that died as a result of overeating at picnics.—The Indianapolis News.

An increase in the number of requests for books on the city of Chicago has been apparent at the New Castle free public library since the Century of Progress opened.

The library has numerous books on this subject and has just ordered several more. A poster made by Gilbert Hoffman, one of the library pages, invites prospective visitors to the World's Fair to read the Chicago books before their trip.

companion, a part fox terrier, that  
he gave the dog poison before he  
killed himself by drinking the same  
portion Wednesday at his home.David Knobloch, a friend, found  
them both dead when he dropped in  
for a visit. The elderly physician  
—he was 60—lay on his bed and the  
dog underneath. A glass stood  
nearby and a bottle marked "poison"  
lay on the floor.Knobloch found a note which  
read: "Take care of my dog Lad-

him alongside of me. No person

## Wheat Process Tax Forms Here

Millers And Wholesalers  
Now Have Forms For  
New Tax

### RETAILERS WILL GET FORMS IN FEW DAYS

Tax forms for the payment of the wheat process tax are in the hands of millers and wholesalers of the county, but the forms for retailers will probably not be received for several days. The process tax went into effect on July 9 but retailers have been granted a thirty day extension. The wholesale tax is due now.

In order to be certain there would be no wheat escape the tax, millers and wholesalers must pay a floor tax on all wheat and wheat products on his shelves but this floor tax so-called will be paid but once. After that the wheat and the products will be taxed at source.

Marion S. Woods, Deputy Internal Revenue Collector for this district has sent the names of all retailers into the revenue department and the forms for the tax are being mailed direct to the retailer.

The process tax on wheat amounts to thirty cents per 60 pounds bushel, but the retailer pays a tax on all stock in his warehouses between July 9 and August 7. The rates of the tax to the retailers follow:

Flour: Whole wheat and graham, .500; all flour except whole wheat and graham, .704; semolina and farina, .704.

Prepared flour: Doughnuts, .401; biscuit, .669; pancake, .493; pie crust, .422.

Cereal preparations made chiefly from wheat: Whole wheat type, including those consisting chiefly of whole wheat, .500; all others except those consisting chiefly of bran, .704.

Bread: All bread except rye, .483; rye, .306; swieback, .462; rolls (all types)—and coffee cake, .483. Crackers, .690. Pretzels, .732.

Macaroni and spaghetti (except canned—, .750; canned macaroni and spaghetti, .188. Noodles, .714. Paste, .557.

# MORE SAFETY MORE MILEAGE

## AT NO EXTRA COST!

ONE of the strange facts about the tire business is—the PRICE of all tires is about alike.

That being so, you might as well pick the best—in quality, in safety, in mileage.

**What is the best in quality?** The public says GOODYEAR—this tire is preferred by more people than any THREE other makes of tires combined.

**What is the best in safety?** Accurate tests on wet concrete show Goodyears will stop a car *quicker than any other tire*. The next best tire skidded 10% more—other tires skidded up to 77% more under exactly the same conditions. And if you want safety from blowouts—remember that Goodyears give safety in *every ply*, because every ply is built with Supertwist cord and every ply runs from bead to bead.

**What is the best in mileage?** Bus fleet records show Goodyear Tires give 97% more mileage than they gave five years ago.

Now that all prices are headed UP—it's more important than ever to get the most for your money. Better look over your tires and buy new Goodyears now while prices are still low.

# Tigers-Mahoning Hope To Smash Deadlock

## First Half Title At Stake Today

Mahoning Has Scored Most Runs, Hits In Present Series

GAME TO START 6:15 P. M. D. S. T.

Having decided that what one can do today should not be relegated until tomorrow, because tomorrow never comes, the Tigers and Mahoning will stage their first half championship game at 6:15 p. m. D. S. T. today at Centennial field.

The clubs have played three other games; in fact it was thought that there would have been sufficient to uncover a champion, but they were not. Each team took a game and in the third clash the teams came out of the nine-inning game with five scores each.

The fourth game was listed for Tuesday but Mahoning played on Tuesday and when Mahoning wanted to play Wednesday it was found the Universals-Homestead Grays prohibited the use of Centennial field so the fourth tilt could not be played until today.

And now, getting down to facts, the composite box score of the three games shows that Mahoning has scored more runs, made more hits and turned in less errors than the Tigers. In making assists the Tigers made 23 to 16 for Mahoning. Mahoning made 15 runs, 24 hits, 60 putouts, 16 assists and four errors in the past three games. The Tigers scored 11 runs, got 16 safe outs, made 60 putouts, 23 assists and five errors. Houston, infielder for the Tigers, turned in the only home run.

**Other Good Choices.** Paul McCullough pitched in one game. He fanned 11 and allowed nine hits. In strikeouts he leads his opponents. In another game Steve Hutnic allowed only two hits and struck out two in an abbreviated game. He allowed the Tigers no freedom at all in that tilt.

However, McCullough and Hutnic are not the only pitchers who have hurled good ball and it may be that there may be a general crossing of the works when the managers announce the batteries Thursday at 6:15 p. m., D. S. T.

Peretti has been pitching good ball for Mahoning A. C. In the league games, until the series started, he had not lost a game. Nick Cangey thinks an awful lot of Peretti. In fact, Signor Cangey has been wont to say, "He's a sweet hurler."

Should Alec Black, director of the Tigers, desire he can put Hoffmeister, Stone or Houston on the mound. Not so long ago, fans will remember, Alec warbled something about Hoffmeister being able to beat Mahoning any time he started.

That may and may not be true. When Mahoning starts to hit they hit. Some of them claim they are weak with the willow. To those who watched Mahoning come from behind in many games this year this is something of a fallacy.

**Cracked in Eighth.** The Tigers are more apt to crack than Mahoning, according to fans who have watched them both the ball then go to pieces for an inning or two. In the last series game it was "Pretty Boy Mac" as we once dubbed him who held his mates together.

In the third game Mahoning scored twice up to the fifth frame when McCullough's single scored Jackson. With Houston and McCullough on the paths, Chill tripped, driving in the runners, putting the Tigers in front.

They fattened their run column with two more in the seventh but a break was taken advantage of by Mahoning in the last of the eighth and before the Tigers settled down the score was tied.

Huff, a good hitter, singled a few feet off first. The hit should have been an out by Stone, who was playing first after Campbell has been relieved at third by Goussard. This put the works in and the Tigers cracked.

**Mahoning Rallies.** Another break came as McCullough was getting ready to pitch the third strike across to Calipetire. Umpire Jones called time. The third strike didn't count and the next pitch found Calipetire tripping to right, scoring Huff.

While the team was up in the air, C. Picarro tripped, scoring Calipetire with the fourth run. N. Peretti was thrown out and Mash bumped on the third strike which Catcher McCormick dropped. He threw to first and C. Picarro scored the tying run.

That ended the scoring for the day as darkness curtailed the field and now that the fourth game is on tap it is anticipated that the ball yard will be crowded. The managers should see that the game starts at 6:15 p. m., D. S. T. today.

The theatrical magnates are about to formulate an industrial recovery code. And it will be interesting to see whether it improves the chances of getting a couple of decent seats at the box office rate.—The Lowell Evening Leader.

## Chicago Cubs Fighting Hard

Chicago Cubs Start Pennant Push; Win Seventh In Row At Expense Of Brooklyn

PIRATES FINALLY SUBDUE BRAVES

By COPELAND C. BURG  
International News Service Sports Writer  
NEW YORK, July 13.—We just had a very painful thought.

The Chicago Cubs may win the National League pennant. That would give us another world series such as we had in 1932, in which the same teams dropped four straight games, none of which was sparkling enough to warrant running up the flag with band music.

It looked today as though Wanneke, Tinning, Root and Bush were great enough pitchers to put an otherwise rather mediocre, colorless aggregation into a pennant snatching. The Bruins are now in the midst of a brilliant mid-season push and if their pitchers don't exhibit feet of clay too soon, they'll quite likely leave behind the overrated Giants, the Cardinals and the Pirates.

**Cubs Win Again**  
The Cubs took their seventh in a row yesterday from the Brooklyn vaudeville troupe, 5 to 3, and moved into second place, three games behind the Giants. Ray Benge, the silent man from Texas, pitched well enough for the Dodgers, allowing seven hits, one less than Brooklyn got off Guy Bush, but three errors in the first inning and a lost fly again defeated the clowning flat-bushers.

Hal Schumacher scored his sixth shutout of the season for the Giants turning back St. Louis, 8 to 0. Byrne James handled the shortstop job for the Giants without a bobble.

Washington kept its two-game advantage in the American circuit by scoring three runs in the eighth, winning from the White Sox of Chicago, 4 to 1. Earl Whitehill held the Sox to five hits but was showered in the ninth, McAfee finishing Allen Fane Ten.

Johnny Allen got hot and fanned ten as the Yankees beat St. Louis, 4 to 2. The Browns collected seven safeties off Allen, with Ed Wells yielding ten to the New Yorkers. It was the fifth win in a row for the Yanks.

Jimmy Fox's homer No. 25 in the sixth started the Athletics on a three-run rally, which won over the Cleveland Indians, 6 to 4. Ruben Walberg gave the tribe 12 hits.

A single by Roy Johnson in the eleventh inning ended a hurling duel between Vic Sorrell and Lloyd Brown, the Red Sox grabbing it from Detroit, 1 to 0.

**Pirates Win**  
The Braves of Boston slept soundly for eight innings and then put over eight runs to tie the score with the Pirates. But Pittsburgh won, 9 to 8, in the tenth when Vaughn tripled.

Roetger's triple, in the third with the bags stuffed, wrapped it up for the Cincinnati Reds over Philadelphia, 4 to 1. The defeat lowered the Phils into the cellar.

## Wilson Low In Lion's Handicap Match At Muny

Dr. Jay Reed, Jesse Gibson And Waddington, High In Lion's Club Play

Final handicap cards of 18 holes were turned in by the members of the Lion's club last night at the Municipal course. The low net honors went to Don Wilson whose game was 91 and with a 19 handicap netted 72. Next low was Dr. Jay Reed with a 91-17-74, and Jesse Gibson with a 92-16-76. John B. Waddington also had a 76 net.

Next Wednesday the annual Lion's Club tournament will start at the Municipal course, and it looks as if Wilson, Gibson and Reed would fight it out, with John B. Waddington for the championship. The handicap rounds provoked a lot of amusement. Earl Ramsey was high man last night turning in 134 for 18 holes and with a 32 handicap this gave him a net of 102.

The results:

Player	G. N.
Don Wilson	91
Jay Reed	91
Jesse Gibson	92
J. B. Waddington	92
Roy Conway	110
Robert Whitley	102
M. E. Myers	100

Cut Over Eye Ends Fight In Fourth Round, Van Klaveren Gets Peeved

(International News Service)  
NEW YORK, July 13.—The crackling old Fargo express ditched "he flying Dutchman."  
Uncle Will Petrolle gained a triumph over Bep Van Klaveren of Holland in a peculiar way at the polo grounds "st night."

A pre-battle cut over Van Klaveren's right eye was re-opened with one of the first left hooks Petrolle landed. It bled so freely for four rounds that Dr. Joseph Sheridan, a member of the boxing commission staff, refused to allow Van Klaveren to come out for the fifth round. Petrolle's victory then must go as a technical knockout in four rounds, the bell for the fifth not having been rung.

Van Klaveren went plumb loco over the doctor's decision. "No, no, no," he shrieked in his peculiarly high pitched voice.

Van ran across the ring and beckoned for Petrolle to come out. When Petrolle made no move to arise, Van Klaveren in his wrath shoved his fists in Billy's face.

Police jumped in at this point and ordered the weeping Hollander to leave the ring.

Several Thousand Fans See  
Homestead Defeat  
Local Nine

Once again the Homestead Grays romped off the field with a victory over a local nine. On Wednesday night at Centennial field the colored aggregation defeated the Universal Sanitary club 8 to 1. Several thousand fans watched the contest which proved exciting despite the lopsided score.

Paul McCullough on the mound for the local team yielded 14 hits. Poor fielding on the part of the Universals accounted for several of the Grays' runs. Brown pitched airtight ball for the Grays. He was touched for five bingles. The Grays played errorless ball throughout while the locals made three errors. The visitors scored in the second, third, eighth and ninth frames. The Universals bunched three hits in the fourth inning to push across their only score. Huff and Blond got two hits apiece for the "U's" while Williams and Strong featured for the winners. The biggest crowd of the season saw the game. On Saturday afternoon at 3:15 o'clock the Akron Goodyears will play the Universals at Centennial field.

(International News Service)  
CHICAGO, July 13.—Athletics in the high schools of Chicago were "a thing of the past" today, following the dismissal of approximately 60 coaches in senior and junior high schools as a part of the board of education's \$5,000,000 retrenchment program.  
In addition more than 350 physical education directors were dropped.

## Australia Banks On Jack Crawford

(International News Service)  
LONDON, July 13.—With its entire hopes centered around Jack Crawford, newly crowned Wimbledon singles champion, the Australian Davis cup team takes the court today against England in the European zone final for the right to meet the United States in the inter-zone final next week-end, with the victor of this match meeting France for the cup.  
Crawford was held by many to be strong enough to triumph in his two singles matches, but the other singles selection, Vivian McGrath, is the weak cog. If McGrath can account for one of the singles matches or aid in the doubles, it is highly likely the Aussies will emerge triumphant.  
Crawford will meet Bunny Austin in the opening singles match, with McGrath taking on Fred Perry.

Stock Market  
Pushes ForwardPossible Recognition of Russia  
May Be Factor  
In RiseTRADING GOES BACK  
TO BOOM PROPORTIONS(International News Service)  
NEW YORK, July 13.—With little in the news to account for it, the stock market rushed forward to more than 8 points in a surprise burst of strength today.

Inflationary stimulus was lacking for the dollar was relatively quiet. Sterling was up slightly while the gold currencies were virtually stationary.

Grains provided some assistance with the continuation of their rise. Rye jumped 2 cents a bushel more while wheat and corn showed small gains. Cotton was down after yesterday's sensational rise. Bonds were firmer.

Speculative circles attributed some of the buying to the statement of Raymond Moley, assistant secretary of state, on his return from Europe that negotiations were under way for the recognition of Russia.

The liquor issues continued to monopolize bullish attention. American Commercial Alcohol set out to rival yesterday's uprush and spurred more than 7 points. Commercial Solvents and U. S. Alcohol were other active favorites.

Close behind were the aviation issues and the sugars. United Aircraft soared more than 4 points while American Sugar set a fast pace for its group. Farm stocks had an early run-up under the leadership of Case Threshing, which crossed par, but failed to carry through.

Rails, industrials and utilities were stronger but failed to rival the sweeping advance in the other groups.

Trading again went back to boom proportions as blocks ran to 28,000 shares. The ticker fell 10 minutes behind.

The bulge brought in huge profit-taking but this resulted in only moderate recessions.

Union Pacific, Delaware &amp; Hudson and N. Y. Central set the pace for the rails, the group beginning to discount the expectation of another favorable traffic holiday Saturday despite the July 4 holiday slackening.

ELLWOOD CITY, July 13.—Ellwood City fighters seemed to have snatched the United States Elimination tournament staged at Oil City last night in view of the splendid performances made. The four local boys entered in the amateur tournament won their bouts. Joey Evans, 120 pound Golden Glove Champion of Beaver Valley added further to his laurels by winning a decisive victory over Frankie Russo of Warren, Pa. The local champion won every round and received the unanimous decision of judges. Due to his boxing ability and willingness to mix it Evans' services have been in great demand in the district. Evans is reputed to be one of the finest amateur defensive boxers in the district. Dave Heiser's other entry, "Tiger" Ray Atkinson 140 pound Beaver Valley Golden Glove champion, drew a by and will not fight until next Monday night. Charles Arkett of the Benny Rocco stables here smashed his way to a two round technical knockout victory over Robert Franz of Corry, Pa. Pete Boy also of this city won a close decision over Johnny Anderson in a rip-roaring battle. All of the local fighters are scheduled to appear for the second series of eliminations next Monday night at Oil City. SUCCESSFUL TEA AT WURTEMBERG

ELLWOOD CITY, July 13.—Amidst a cleverly improvised garden setting of jack-o'-lanterns, places were arranged for more than 40 guests Wednesday evening at the Wurtemberg United Presbyterian church when members of the Willing Workers class were hostesses at an evening tea and entertainment. Garden flowers were effectively used as centerpieces on the small tables.

The program opened with selections from a quartet composed of Miss Frances Mehard, Misses Julia and Lavee Hooker and Mrs. J. E. Caughey. Mrs. J. D. Swick gave two humorous readings which were well received, and Mrs. Victor Koach contributed an amusing monologue in her inimitable style. The program was concluded with a violin solo, "Forget-Me-Not," by Miss Elizabeth Caughey. A period of guessing games and group singing was followed by the serving of tea, cakes and cookies, with a member of the class pouring at each of the small tables.

POTTSVILLE, Pa., July 13.—The  
forthright story of Mary Dennick,  
supported by members of her fam-

might have closed the study of her  
step-father's death as a case of sui-

But the 16-year-old Minersville  
girl neglected to take account of a  
splintered door frame, the observ-

disclosures of a post mortem.  
Today, Mary languished in the  
Schuylkill county prison, the grim  
charge of murder facing her as she  
pleaded that she killed to protect  
her mother.  
A 32 calibre bullet crashed  
through the skull of Mario Mali-

authorities, who found the Italian's

## Ohio Drys Are Planning Fight

Will Carry To U. S. Supreme  
Court Protest On Decree  
By State Supreme Court

SET NOV. 7 DATE  
FOR REPEAL VOTE

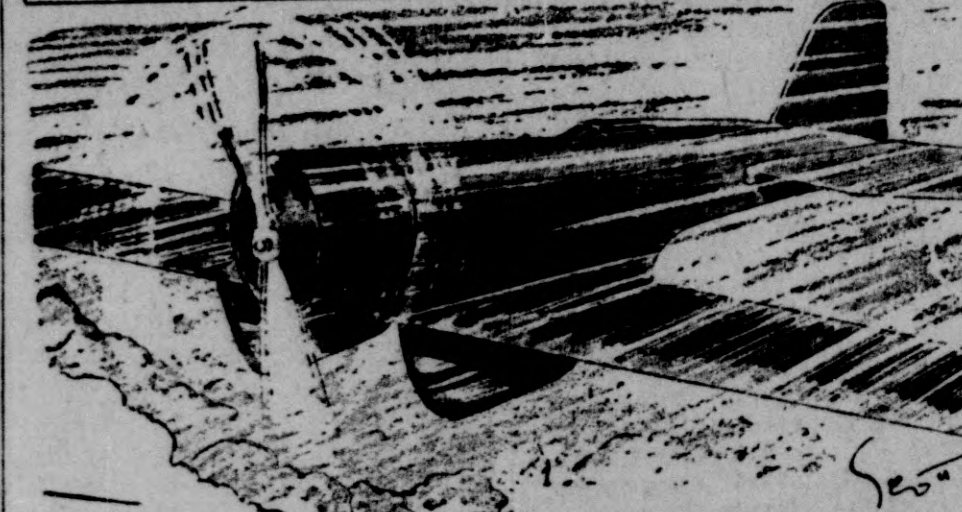

(International News Service)  
COLUMBUS, O., July 13.—Fight-  
ing to the last ditch, the Ohio Anti-  
Saloon League today planned to go  
to the U. S. Supreme Court against  
a decree yesterday by the State Su-  
preme Court that Ohio must vote  
November 7 on the question of re-  
pealing the eighteenth amendment.  
Wets throughout Ohio celebrated  
the decision as their greatest of  
many recent victories, but dries re-  
fused to abandon hope. The state  
court, by a vote of six to one, held  
that the Mosier law, providing for  
election of delegates to a state con-  
vention on liquor repeal, is not sub-  
ject to the referendum demanded by  
organized dry forces.  
Unless the ruling is thrown out by  
a higher court, Ohio will elect its  
delegates at the November 7 elec-  
tion for a repeal convention to be  
held December 5.

WASHINGTON, July 13.—A sug-  
gested code for the tin plate work-  
ers was submitted to the national  
industrial recovery administration  
today by H. Phillips Stone of New  
Castle, chairman of the employees'

It deals with suggested wage in-

before the recovery administration.  
At the industrial recovery ad-  
ministration it was stated that Mr.  
Stone would be afforded an op-  
portunity to testify when the code  
is considered.
